SUMMARY

Full Stack Developer with 4+ years of experience designing, developing, and deploying scalable enterprise applications using Node.js, NestJS, Express.js, React.js, TypeScript, and JavaScript, backed by PostgreSQL, MySQL, MongoDB, Redis, and AWS S3. Designed and built the complete full stack architecture of Mockwin.ai, an AI-powered interview platform: secure REST APIs with JWT authentication and role-based authorization, AI workflow orchestration with LangGraph, Deepgram Speech-to-Text, WhatsApp Business API automation, Razorpay payment gateway integration, Cron Jobs, and background workers. Experienced in scalable backend architecture, microservices, database design, Redis caching, SQL query optimization, CI/CD, and Agile Scrum. Open to Full Stack, Node.js, and Backend Developer roles.

SKILLS

Backend: Node.js, NestJS, Express.js, REST API Development, Microservices, JWT Authentication, Role-Based Authorization, Webhooks, Cron Jobs, Background Workers, Workflow Automation

Frontend: React.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Responsive Web Design

Databases & Caching: PostgreSQL, MySQL, MongoDB, Redis, Database Design, SQL Query Optimization

AI & Integrations: Third-Party API Integration, LangGraph, LangChain, Deepgram Speech-to-Text, WhatsApp Business API, Razorpay Payment Gateway

Cloud & DevOps: AWS Lambda, AWS EC2, AWS S3, CI/CD, Git, GitHub, Docker (Basic)

Tools & Practices: Swagger (OpenAPI), Postman, JIRA, npm, VS Code, Agile Scrum

EXPERIENCE

Full Stack Developer | Coding Limits Pvt. Ltd., Nellore

Nov 2025 – Sep 2026

Project: Mockwin.ai – AI Interview Platform

Tech: React.js, Node.js, NestJS, TypeScript, PostgreSQL, MySQL, Redis, AWS S3, JWT, Swagger, LangGraph, Deepgram, Razorpay, WhatsApp Business API, Git

- Designed and developed the complete full stack architecture of Mockwin.ai, an AI-powered interview platform, with responsive, reusable React.js and TypeScript frontend components and scalable Node.js/NestJS backend services.
- Designed secure REST APIs for authentication, recruiter management, candidate onboarding, interview scheduling, reports, dashboards, and AI workflows, with JWT-based authentication, role-based authorization, and Swagger (OpenAPI) documentation.
- Developed AI workflow orchestration using LangGraph and integrated Deepgram Speech-to-Text APIs for AI interview transcription.
- Built WhatsApp Business API integrations and workflow automation modules for interview lifecycle management, including automated interview reminders, candidate notifications, and recruiter updates.
- Developed Cron Jobs and asynchronous background worker services for interview reminders, scheduled reports, cleanup activities, notifications, and AI tasks.
- Integrated the Razorpay Payment Gateway (order creation, payment verification, webhook handling, refunds, transaction management) and developed secure webhook endpoints for third-party integrations and payment callbacks.
- Integrated AWS S3 for secure document, image, and media storage, with encrypted storage and secure access control.
- Designed optimized PostgreSQL and MySQL database schemas and improved backend performance using Redis caching and SQL query optimization.
- Debugged and resolved production issues to improve application performance, scalability, and reliability; participated in code reviews and maintained coding best practices.
- Collaborated with UI/UX designers, QA engineers, DevOps teams, and product managers in Agile Scrum environments.

Node.js Developer | Tekreant India Pvt Ltd

Dec 2024 – Oct 2025

Tech: Node.js, NestJS, PostgreSQL, MySQL, Redis, JWT, Microservices, Git, CI/CD

- Developed scalable backend applications and reusable backend modules using Node.js and NestJS, following enterprise architecture.

- Designed and implemented RESTful APIs for enterprise applications and participated in microservices-based application development.
- Worked extensively with PostgreSQL, MySQL, and Redis, and integrated third-party APIs and business services.
- Implemented authentication and authorization using JWT and developed scheduled Cron Jobs for automation tasks.
- Worked with Git and CI/CD deployment pipelines and collaborated with frontend developers for seamless API integration.
- Participated in Agile ceremonies (sprint planning, stand-ups, sprint reviews, retrospectives) and debugged production issues to improve application reliability.

Junior Software Developer | YPoint Analytics

Jun 2022 – Dec 2024

Tech: Node.js, Express.js, NestJS, MySQL, MongoDB, JWT, Postman

- Developed backend applications and reusable backend modules using Node.js, Express.js, and NestJS.
- Designed and implemented RESTful APIs and integrated third-party APIs.
- Optimized MySQL and MongoDB database performance.
- Implemented secure JWT authentication and authorization and performed API testing using Postman.
- Fixed production bugs and enhanced application stability.
- Participated in Agile Scrum software development, collaborating with cross-functional teams to deliver enterprise applications.

PROJECTS

Mockwin.ai – AI Interview Platform | Coding Limits Pvt. Ltd. | React.js, Node.js, NestJS, TypeScript, PostgreSQL, MySQL, Redis, AWS S3, LangGraph, Deepgram, Razorpay, WhatsApp API

AI-powered interview platform built end to end.

- Developed complete end-to-end full stack features, including AI-powered interview workflows and recruiter and candidate management systems.
- Developed automated workflow engines, WhatsApp notification services for interview reminders and recruiter communication, and Cron Jobs for scheduled interviews, reports, reminders, and maintenance.

Servm.ai | Node.js, NestJS, MySQL

- Developed backend APIs, business workflow modules, and scalable enterprise services, and optimized database operations.

Labsquire | Node.js, Express.js, MySQL

- Developed backend REST APIs, optimized SQL queries, and improved application performance.

Wheels Global | Node.js, MySQL

- Developed backend business modules, integrated third-party APIs, and optimized backend processing.

Other enterprise projects: e-Tailor, Change of Condition (COC), Y-Tracker, Mental Health Chatbot, Centarus

EDUCATION

Bachelor of Technology (B.Tech), Electronics & Communication Engineering

IIIT Idupulapaya (RGUKT RK Valley) | Graduation Year: 2022
